

# Grace Fellowship Sick Policy

It is the goal of Grace Fellowship to provide an environment where the children in our care are healthy and free from recent infectious illness. In order to provide such an environment we rely on the parents to keep their ill children at home. In order for a child to be considered "healthy" they must:

- Be fever free, without fever reducing medication, for 24 hours.
- Be on an antibiotic for at least 36 hours (if prescribed).
- Be free of vomiting or diarrhea for at least 36 hours.
- Be free of a runny nose of color or persistent cough.
- Be free of any communicable diseases.
- Be free of any discharge in or around the eye.

**Thank you for your help in keeping our children healthy!**
